

Ahmed Nawar

Software Engineer

nawarahmed652@gmail.com | +20 155 103 0114 | Egypt | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with a strong foundation in backend development, OOP, SOLID principles, design patterns, data structures, and algorithms. Experienced in building production-grade microservices systems using Java and Spring Boot, with proficiency in event-driven architecture (Kafka), containerization (Docker), and cloud-native patterns (Spring Cloud).

PROJECTS

Bank-CIF-TPIN-System [↗ Github](#) 2026

Java 21 · Spring Boot 4 · Spring Cloud · Spring Security (JWT) · Spring Data JPA · H2 Database · SpringDoc OpenAPI · BCrypt · Lombok

- A secure REST API built with Spring Boot 4 and Java 21.
- Managing Bank Customer Information Files (CIF) and Transaction PINs (TPIN).

Smart Queue System [↗ Github](#) 2025

Java 21 · Spring Boot 4 · Spring Cloud · Kafka · Docker · JWT

- Designed and built a 10-microservice enterprise backend for hospital resource management.
- Implemented event-driven communication with Apache Kafka (Strategy, Observer, Adapter/Factory patterns).
- Secured services with JWT-based authentication; deployed the full stack via Docker Compose.
- Applied Spring Cloud patterns: API Gateway, Eureka Service Discovery, and Feign Clients.

FreelanceHub – Freelancing Platform Backend [↗ Github](#) 2025

Java 21 · Spring Boot 3.3 · Saga Pattern · Redis · Circuit Breaker · Docker

- Built a production-grade multi-service backend (User, Project, Contract, Payment, Review, Notification).
- Implemented Saga pattern for distributed transactions and Redis caching for performance.
- Added Circuit Breakers, rate limiting at the gateway, and full Docker Compose deployment.

SmartEvent Platform [↗ Github](#) 2025

Java · Spring Boot · Kafka · JWT · OAuth2 · Docker

- Developed an 8-microservice event management platform with Kafka-based event streaming.
- Implemented dual authentication (JWT + OAuth2) and containerized with Docker.

EDUCATION

Bachelor's Degree in Computer Science & Information Technology Graduated 2025

[Menofia University](#) · Egypt · GPA: **3.47 / 4.00 (Very Good)**

Relevant Coursework:

- Object-Oriented Programming & SOLID Principles
- Design Patterns (Factory, Builder, Singleton, Prototype, Proxy)
- Data Structures & Algorithms

- Database Design, Normalization & ER Modeling
- Computer Networks & Security Basics
- Operating Systems & Memory Management

TECHNICAL SKILLS

Languages	Java · Python · C++ · C
Backend	Spring Boot 3/4 · Spring MVC · Spring Data JPA · Spring Security · REST APIs
Microservices	Spring Cloud · API Gateway · Eureka · Feign · Circuit Breaker · Saga Pattern
Messaging	Apache Kafka
Databases	MySQL · PostgreSQL · SQL Server · Hibernate / ORM
DevOps & Tools	Docker · Docker Compose · Git · GitHub · GitHub Actions (CI/CD) · Postman · IntelliJ IDEA
Web & Frontend	HTML · CSS · JavaScript · React.js · TypeScript
Data Analysis	Python (Pandas, NumPy, Matplotlib) · Power BI · Tableau · Excel · SQL
Architecture	Microservices · Event-Driven Architecture · SOLID · Clean Code · Design Patterns
